SKILLS

Figma, Framer, Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Adobe After Effects, Premiere Pro, JavaScript (React.js, Node.js, PHP)

ABOUT

I'm Saurabh Gunjal, a creative professional with a strong background in UI/UX design, graphic design, and web development. With hands-on experience in tools like Figma, Adobe Creative Suite, and After Effects.

I specialize in crafting user-friendly interfaces, engaging visuals, and impactful digital experiences. Alongside design, I have practical knowledge of front-end and back-end development using HTML, CSS, React.js, Node.js, and WordPress, allowing me to bridge the gap between design and functionality.

PROJECTS

01 Tata Power UI/UX Project (Figma, Photoshop):

Conducted stakeholder analysis and UX study for Tata Power, focusing on aligning user needs with business goals.

02 Nature's Harmony Brand Kit (Figma, Illustrator, Javascript):

Brand Kit – built complete component system, full brand identity, and designed the website
